Higher prices for broilers, cattle, corn and cauliflower were partially offset by lower prices for hogs, peanuts, milk and apples. The seasonal change in the mix of commodities farmers sell often affects the overall index. Higher seasonal marketings of cotton, milk, cattle and cottonseed were partially offset by lower marketings of soybeans, peanuts, potatoes and lettuce.

U.S. INDEX OF PRICES RECEIVED

The Preliminary All Farm Products Index of Prices Received in November was 97 based on 1990-92=100, up 4 points (4.3%) from the October Index.

Compared with November 1999, the All Farm Products Index was 4 points (4.3%) higher. Price increases from November 1999 for cotton, cattle, corn and tomatoes were partially offset by lower prices for milk, apples, oranges and potatoes.
